THE LADY AND THE 10

COOL IT

You're about to see a new face in your billfold—and this time around it's going to be a woman!

Alexander Hamilton will share the spotlight on the \$10 bill with a woman. The new bill will also include some new security features to prevent counterfeiting.

Did I forget to mention which woman is going to be on the new 10? Well, that's because the Treasury Department hasn't decided yet!

The Treasury Department has allowed the public to make suggestions on social media using #TheNew10.

Some serious contenders for the new 10 include:

- Harriet Tubman—conductor of the Underground Railroad.
- Betsy Ross—creator of the first American flag.

- Rosa Parks—activist in the Civil rights Movement.
- Eleanor Roosevelt—contributor to the UN Bill on Human Rights.

Who do you think it should be?

What goes on the Internet stays on the Internet. Anything you say in an email, or on sites like Instagram and Twitter, takes on a life of its own. There's no way to erase that stuff! When you apply for a job, your potential employer can go online and see what you have to say for yourself.

One college graduate was all set to accept a management offer from a credit union. Then his almost-employer checked his Facebook page and discovered his favorite pastime was not in keeping with the image that credit union wanted to portray. The credit union withdrew its job offer and he had difficulty finding employment after that.

In responding to emails you may say things you will later regret. As a rule of thumb, handle emotional and sensitive issues face to face rather than by email.

MONEY TRICKS

Create Your Spending Game Plan

Want that BMX?

Create a yearly budget to organize your income and expenses. Include savings as one of your expenses. Use your budget as a guide to help you live within your income.

MAKE STRONG PASSWORDS

Your passwords are your first line of defense in Internet security. Here's how to make them really strong:

Start with a word or short phrase that's not common and means something to you. Make it at least 10 characters long. This will be your base password. For example:

middle school

Push the two words together and substitute symbols, numbers, and uppercase letters, using them consistently, like this:

In order to have a different password

for every website, add the first four letters of the name of the site, using the same substitutions consistently. For example,

Minecraft.net:
 Youtube.com:

Make up different base passwords for important sites such as email and financial accounts.

To help you remember all your passwords, check out a password manager such as Lastpass.

For more information, search "password" in AJ's search engine, at cefcu.com/googolplex.

GAMES

People of Earth. We have observed you from afar for many centuries. Thus we believe we know more than you do on a variety of subjects, including lesser-known facts about money.

Do you disagree? Then prove your worth by taking this quiz. It's so simple, even little green men can do it.

1. Warner Communications paid a staggering \$28,000,000 for the copyright of which popular song?

- "Twinkle, Twinkle Little Star"
- "The Itsy Bitsy Spider"
- "Jingle Bells"
- "Happy Birthday"

2. If you want your portrait on U.S. currency, by law you must meet which of the following requirements?

- You must be a U.S. President.
- You must have signed the Declaration of Independence.
- You must be chosen by a unanimous vote of Congress.
- You must be dead.

3. Independence Hall is featured on the back of the \$100 bill. The clock on the hall is set at 4:10. Why?

- Nobody knows.
- 410 pilgrims disembarked the Mayflower at Plymouth Rock in 1620.
- George Washington was born at 4:10 a.m. on February 22, 1732.
- Thomas McKean was the last to sign the Declaration of Independence on 4/10/1781.

3. Nobody knows.

2. You must be dead.

1. "Happy Birthday"
